Teenage Course

*Helping Parents to Face The Challenges Of
The Teen Years*

Another parenting skills course brought to you by Perth's

COURSE Benefits

The course empowers parents with problem solving skills and the ability to determine how to prioritize issues; helping parents to build a closer, more meaningful relationship with their teenage children. The course format also provides parents with opportunities to share ideas with other parents and learn from their experiences.

Course Methods:

Case Study. Based on methodology developed at Harvard Business School. Participants review real life situations as a means of learning how to identify issues objectively, set attainable goals, propose solutions and solve problems.

Small Groups Discussion. Guided group discussions help participants develop solutions to typical family situations and challenges in an informal setting where they learn from each other and form friendships with like-minded parents.

Informative Presentation. Participants are provided with practical parenting tips and guidelines to apply to their personal situations.
